

How do cress seeds grow?
 Seeds, Wool, Water.

To find out what the best way to grow cress is

What we did:

We watered the cress and put the pot near the light.

We put the other pot in a cupboard without water.

When I predict what happened I find the one with water to it and sun light

Cress seed investigations

Marvellous measuring

Skylarks Home learning Week 1

Terrific tints and shades work

Super scrumptious sandwiches!

Handwritten text on a piece of paper, possibly a recipe or instructions for making sandwiches.

The animals are hibernating
 while the snow is being
 sewn
 drip drip,
 it starts to melt
 Spring is
 coming.

A lovely Seasons Poem
