

I have received a series of complaints that the daily work rota is unmanageable. I therefore invite you to design and submit a new timetable using the following guidelines:

1. One working day = 8 hours.
2. Work at any of the following areas – Ice Farm, Animal Houses or Fisheries – must constitute a minimum of at least 2 hours per day (more than one area can be worked in a day).
3. Study must be undertaken at some point every day, but not after 8pm.
4. Remember to include meals and break times. These should not be included in the 8 hours.
