6. To upload work to your child's portfolio you will need to access their personal account. To do this click on your name at the top left of your screen and then select Student Accounts. You should then see a screen with the names of your children. Select a child from this screen.

7. This will then bring you into your child's account where you can see any messages and work from class teachers and you will also be able to upload photos, video and files. Please upload your child's completed work to their portfolio so the teacher can read and mark it.
