

Our School Eco Committee 2018

Our school is committed to helping the environment.

In the past few years we have improved our world and our school through our hard work.

We have:

Twinned Toilets in Uganda

Raised money for Water Aid

Started a school walking bus

Developed our nature garden

Encouraged healthy eating with Fruit Kebab Friday and Veggie Tub Tuesday

Carried out Litter Picks

Introduced Walking Wilbur (a walking bear)

We are now currently working on improving our nature garden, we have completed a lot of work in the garden over the last few months and the verbena plants are attracting butterflies and insects. Frogs and newts have been spotted in the pond.

Our school walking bus is very popular and we have about 15 children currently walking each Wednesday, which has helped with the traffic problems around the school.

Why we do this work:

Because we want to save our world and all the wildlife because many species are becoming extinct - Tyler

We want to help save the world for future generations - Dulcie

Our world is important to us and we don't want to waste it - Lola

It is very important that we look after our world - Molly

Eco is important because everybody can contribute and help us - Olive

We are all very dedicated and we love to make a difference to our world . We hope you value the work we do and we hope you share your ideas with us.
